1 week of light ageing in south window. Blue wool 4 has started to fade -> = ca. 4 Mio lux hours (equivalent to 9 years at 150 lux, 8 hours / day or 90 years at 10% of lux or hours. or to 900 years in storage at 1% of the time at light). Since 1999 I keep this page wrapped in aluminum foil in a folder in my cupboard. Karin von Lerber, Textile Conservator, Winterthur Switzerland karin.vonlerber@prevart.ch
