PAPER CONSERVATION CATALOGUE

Format (reprinted 1987)

Each major category is identified by a specific number to facilitate indexing and cross-referencing.

Each treatment category (13 - 31) is broken down into six subheadings: Purpose, Factors to Consider, Materials and Equipment, Treatment Variations, Bibliography and Special Considerations. Each of these subheadings can be further outlined as shown for 1.4 below, i.e. with treatment variations numbered 1.4.1, 1.4.2, 1.4.3, etc.

1. Major Treatment Category

Definition:

- 1.1. Purpose
 - 1.2. Factors to Consider
 - 1.3. Materials and Equipment
 - 1.4. Treatment Variations
 - 1.4.1.
 - 1.4.2.
 - A.
 - B.
 - 1.
 - 2.
 - a. (etc.)
- 1.5. Bibliography
- 1.6. Special Considerations

Bibliography can be annotated to the extent that the subject dictates.

Special considerations can take many forms. It may include extended essays relating to the material in the preceding outline. It can offer a critical review of the existing literature. It can evolve into a dialogue between conservators with complementary or dissenting viewpoints.

Special considerations material is segregated from the broader body of outlined information in an effort to keep the outline simple enough for easy reference.
